

"IN HER SHOES"

Waypoint's Domestic Violence Victim Services Program is providing "In Her Shoes" simulations aimed to take participants through the experiences of real-life victims to gain a better understanding of:

- ➡ **Barriers victims have within our community**
- ➡ **How to interrupt the abusive behavior they witness**
- ➡ **The difficulties victims face while navigating social services and other systems**
- ➡ **Ways to lower the risk of harm for clients or loved ones experiencing domestic violence**

Our goal is to increase awareness of the struggles that women with abusive partners face and show that we all have a role in the movement to **end domestic violence**.
